As a Pipe Carrier, I escort them to each ceremony and prepare them for their time spent in prayer with all who want to hear the tales of how two tribes became gifted with the Sacred Pipe. All necessary preparations for the pipes will be done long before the pipes even arrive at the location. This is a time of sacred prayer and enlightenment. Each person will experience it differently and no way is wrong. Come share the time and help bring blessings on this year's festival.

Ghosts in the Bedroom**

This workshop is for survivors of incest/abuse and their partners and designed to aid the recovery of Survivors and partners. For the safety of all, no perpetrators please. The intention of the workshop is to identify issues from our past that covertly affect our lives and relationships today so that we may take steps to minimize their effect on us today. The definition of incest is determined by the recipient, it may include any abuse; physical, mental, verbal, or emotional, by any person in authority or guardianship over another. My partner and I are Survivors and have come a long way through the process in DIA and other forms of recovery. Although we are not all better, yet we believe we have hope and healing to offer others. This could become very intense. We ask that if you do not intend to bring your partner that you at least bring a friend who will be there for you and support you through the possible reactions. We will try to have other support people available as well. We will be available for follow-up at our campsite for the remainder of the weekend and by phone after. Please feel free to seek us out.
